RESULT LIST

LIST OF KNOWLEDGE CO-CREATION PROGRAM（GROUP AND REGION FOCUS) IN JFY 2026

Country:BRAZIL

No.	Project Number	Sector	Sub-Sector		
	PROJECT TITLE			Language	Center
	Outline				
1	202514917	Governance	Legal and Judicial Development		
	Criminal Justice (Focus on Investigation, Prosecution, Adjudication and International Cooperation)			English	Tokyo
	This course is co-organized by the United Nations Asia and Far East Institute for the Prevention of Crime and the Treatment of Offenders (UNAFEI). This course targets officials engaged in CPCJ and consists of lectures by experts from Japan and the other countries, group discussions and visits to relevant organizations, on issues of international interest in thefield of CPCJ. The goals of the course are to share knowledge, experiences, challenges and best practices, and to enhance practice in the field of CPCJ. At the same time, we will provide opportunities to build an international networkthat will contribute to achieving these goals.				
2	202514920	Governance	Legal and Judicial Development		
	Enhancing Policy and Practice in the Field of Crime Prevention and Criminal Justice (Senior Seminar)			English	Tokyo
	This course, co-organized with UNAFEI, targets high-ranking officials engaged in crime prevention and criminal justice (CPCJ) and includes lectures by experts from Japan and the other countries, group discussions and visits to relevant organizations, on themes in line with the latest international CPCJ trends. The course aims to share knowledge, experiences, challenges and best practice, and to enhance policy and practice in the CPCJ field, and offers opportunities to build an international network to support these goals.				
3	202514924	Governance	Public Safety		
	International Criminal Investigation			English	Tokyo
	In order to realize the rule of law and guarantee basic human rights in the midst of increasing cross-border crimes, it is necessary to strengthen international cooperation andinternational collaboration among law enforcement agencies as well as to strengthen the capacity of law enforcement agencies in each country. This program is offered to middle-rankingofficials, especially for officials of international criminal investigation or Mutual Legal Assistance in criminal matters.				
4	202514925	Governance	Public Safety		
	Community Policing			English	Tokyo
	In order to realize the rule of law and guarantee basic human rights, it is necessary to ensure the safety and peace of local communities. In Japan, community policing activities are based on police boxes (Koban) and residential police boxes (Chuzaisho), working closely with local communities and in cooperation with local residents, businesses, and local governments. This KCCP is targeted for officers of central police agency in each country. Participants acquire knowledge and technique of community policing after learning the system and activities of Japanese community policing.				
5	202411506	Gender and Development	Gender and Development		
	Gender and Diversity in Disaster Risk Reduction and Climate Change			English	Tohoku
	Each participant is expected to understand how to strengthen DRR and climate change adaptation through women's participation by learning problems and good practices from Japan's efforts of related organizations and disaster experience and by sharing examples by participant countries on DRR and climate change adaptation from perspectives of high risk groups of the society (women, children, the elderly, persons with disabilities, etc.)				
6	202514953	Information and Communication Technology(Utilization of ICT)	Information and Communication Technology		
	Capacity Development of Space Technology Utilization for SDGs			English	Tokyo
	For the officials and/or staffs related to the space development and its utilization, this program covers the legal development, the organization, the utilization of satellite data, and the space-related industry promotion, etc., which contribute to the achievement of SDGs. This program is designed to gain a wide range of knowledge and skills on the development as well as utilization of space technology, especially aiming the capacity building of administrative activities to utilize space technology.				
7	202514970	Health	Health System		
	Policies and Practices in an Aging Society: Community Based Integrated Approach			English	Tokyo
	This training aims to provide participants with in-depth practical knowledge and diverse perspectives on community-based approaches to address population aging and create an inclusive society. Through lectures, observation tours, and dialogues among participants and with Japanese practitioners and policy makers, participants will learn from multiple perspectives about Japan's experience of rapid population aging ahead of other countries, and gain perspectives, conceptual frameworks, and practical ideas for creating societies where older people and their families can live as they wish in their respective countries.				
8	202514978	Health	MCH /Reproductive Health		
	Public Health Activities for Strengthening Maternal and Child Health(A)			Portuguese	Okinawa
	By gaining the knowledge about public health activities in Okinawa in post-war period such as maternal and child health (MCH) handbook, maternal and child continuum care, humanized delivery, the participants make the action plan to be applied to in each country and target community. This program aims to address one of the clusters of JICA's Global Agenda on Health "Strengthening Quality Continuum Care for Mothers and Children, including the Use of the MCH Handbooks".				
9	202515005	Social Security	Support for Persons with Disabilities		
	Capacity Development of Leaders with Disabilities for UNCRPD (UN Convention on the Rights of Persons with Disabilities) Implementation			Spanish	Kansai
	The Convention on the Rights of Persons with Disabilities, which entered into force in May 2008, has been ratified by 192 countries and regional organizations as of April 2025. However, in many developing countries, various improvements in accordance with the Convention on the Rights of Persons with Disabilities are lagging behind. It is important that persons with disabilities themselves are involved in decision-making process and the development of domestic laws, projects, and systems.				
10	202515010	Private Sector Development	Tourism		
	Tourism Marketing and Promotion			English	Shikoku
	This training aims at providing the government staff with the knowledge and skills to plan and implement tourism marketing and promotion properly. This will lead to promote the sustainble use of tourism resources, strengthen the institutional system for receiving tourists, and identify market trends in the target countries. Furthermore, following the pamdemic of COVID-19, the tourism sectors also needs to incorporate recovery plans for "post-coronavirus" era. This course will focus on capacity building in strategic tourism marketing and promotion in response to local developement policies and tourism crisis management.				

No.	Project Number	Sector	Sub-Sector		
	PROJECT TITLE			Language	Center
	Outline				
11	202515022	Private Sector Development	Other Private Sector Development Issues		
	Industrial Promotion and Business Innovation by DX Promotion			English	Kyushu
	The purposes of this training are, 1 to learn about digital technology and various measures to utilize and disseminate in business in Japan, 2 to promote DX through comparative study with their countries and dialogue with the Japanese government and private companies, and 3 to contribute to industrial promotion of the participating countries and management innovation in their own industries.				
12	202515026	Private Sector Development	Private Sector Development		
	Digital Kaizen (Quality and Productivity Improvement by Utilizing Digital Technologies in Small and Medium Enterprises)			English	Tokyo
	This course is designed for personnel who support SMEs and IT-related personnel to learn about methods and examples of quality and productivity improvement using digital technology at manufacturing sites, as well as the system for promotion.The objective is to foster awareness of the further significance and challenges of introducing digital technology by utilizing bottom-up business improvement methods cultivated through kaizen activities, and to develop core personnel who will incorporate the technology into support activities at their organizations.				
13	202515047	Agricultural Development	Agricultural Service		
	Market-Oriented Agriculture Promotion -SHEP Approach- for Latin America (Administrator)			Spanish	Tsukuba
	This program aims to promote market-oriented agriculture for smallholder farmers. Through a series of lectures, observations and discussions, and field visits to agricultural extension systems and marketing/distribution systems in Japan, participants will be able to understand the basic concept of the Smallholder Horticulture Empowerment Promotion (SHEP) approach and how to apply it effectively in their respective countries. Participants will also observe an ongoing SHEP project in the third country to enhance their practical understanding of the SHEP approach.				
14	202515048	Agricultural Development	Agricultural Service		
	Human Resource Development on Private-Public-Academia for Agricultural and Rural DX/Smart Food Chain Co-Creation			Spanish	Tsukuba
	In rural areas of developing countries, it is required to increase farmers' income through improving agricultural productivity and added value of agricultural products. For that purpose, it is necessary to disseminate correct farming knowledge and technology to farmers and access to financial services necessary for purchasing agricultural input materials. Currently, due to the rapid development of information and communication technology, and also impact of COVID 19, introduction of smart technology is also rapidly progressing in each food value chain process such as breeding, cultivation, processing/distribution and consumption.				
15	202515054	Rural Development	Rural Living Development		
	Capacity Development for Empowerment of Rural Women			English	Tsukuba
	This program is designed to provide innovative knowledge and practical skills on empowerment of rural women reflecting good practices of Japan such as Life Improvement Approach etc.				
16	202515081	Urban/Regional Development	Urban Development		
	Sustainable Housing and Building Policy (Decarbonization Building, Green Housing Finance, Affordable Housing)			English	Tokyo
	The supply of quality housing is a major policy issue for the rapid growth of urban populations in emerging economies. There is also a growing need to improve the energy efficiency of housing and buildings to meet the increasing energy consumption. Furthermore, realizing a large supply of low-cost housing through public-private partnerships is needed. This training course will cover topics related to the promotion of decarbonization building, green housing finance, and affordable housing, as well as housing and building policies necessary for sustainable economic growth in emerging economies.				
17	202515103	Natural Resources and Energy	Energy Supply		
	Energy Policy			English	Tokyo
	Participants will deepen their understanding of global energy situation, history and current situation in Japan's energy policy with focusing on the actions towards low carbon or carbon neutral society, and the latest technology trends in Japan through on-site visits and interactions with Japanese companies, and learn how to plan policies based on demand forecast and optimization of energy balance, with appropriately managed energy related data. Also they will have a discussion with experts aimed at creating draft action plans for each participant's country.				
18	202515110	Natural Resources and Energy	Renewable Energy		
	Stabilizing Power Systems to Introduce Various Kinds of Renewable Energy			English	Chubu
	Recently, as a result of dramatic decline of variable renewable energy (VRE) and against the backdrop of global initiative to limit carbon emissions,many countries are starting to accelerate VRE development. However, in many countries, the electric power system is not ready to accommodate large amounts of VRE. This program will introduce the impact of VRE on the stability of the power system and the specific measures to stabilize the power system.				
19	202515112	Natural Resources and Energy	Renewable Energy		
	Hydrogen Solution for Decarbonization			Spanish	Yokohama
	The purpose of this course is to contribute to improving the ability to formulate policies on hydrogen in one's own country by acquiring knowledge of global trends in the hydrogen sector, Japanese policies and technologies in the hydrogen sector, and private sector initiatives in the hydrogen sector, based on the current situation in countries around the world, with the aim of realizing a carbon-neutral society.

	PROJECT TITLE			Language	Center
	Outline				
20	202515117	Nature Conservation	Continued Forest Management		
	Sustainable Forest Management with Community Participation			English	Tokyo
	Various functions which a forest has are existences indispensable to a sustainable development including a local people. In Japan, it is in cooperation in industrial, administrative and academic sectors. The result is reflected in local people-oriented various projects. It is the purpose that the management action by participation of the local people of its own country is promoted through the various cases.				
21	202515125	Environmental Management	Climate Change		
	Adaptation to Climate Change			English	Tsukuba
	It focuses on policy making and elaboration of an Action Plan based on lectures about international framework and Japan's policy on Adaptation to Climate Change (CC) in the 1st half of the program; and sectoral adaptation approaches such as forecast of CC, impact assessment on CC, and sectoral vulnerability assessment (ex. agriculture, disaster prevention) in the latter half.				
22	202515131	Environmental Management	Water Pollution		
	Decentralized Wastewater Treatment System			English	Kyushu
	Untreated night soil and wastewater discharge caused water pollution. The sanitary treatment of night soil and wastewater on-site (Johkasou) is cost-effective countermeasures against water pollution.This program offers comprehensive wastewater treatment systems: laws and regulations to control water pollution(mainly to manage Johkaso system), methodology of night soil and wastewater treatment, and operation and maintenance of Johkasou. This program is in line with the cluster "Promotion of healthy environment through appropriate environmental regulations and pollution control measures" of "JICA Clean City Initiative", which is the Global Agenda in environmental management sector.				
23	202515135	Environmental Management	Solid Waste Management		
	Sustainable Waste Disposal Technology (Fukuoka Method)			English	Kyushu
	The semi-aerobic landfill structure also known as the Fukuoka method, is one of the final waste disposal method. It is a hygienic and environmentally superior method of waste landfilling that was developed in Fukuoka City, Japan. It is used at most final disposal sites in Japan. This method promotes the early decomposition of waste, and the technology is also expected to effectively mitigate climate change. This training course covers a wide range of topics related to semi-aerobic landfill structures.				
24	202515137	Environmental Management	Solid Waste Management		
	Technology for Solid Waste Management with Recycling Promotion for Sound Material-Cycle Society			English	Kyushu
	This program is designed to improve Solid Waste Management (SWM) process comprehensively under the concept of Sound Material Cycle Society (SMCS) for participating countries and regions. It includes not only simple work of SWM, such as separate collection, transportation, intermediate processing and landfilling but also recycle based technology and practical example of SMCS carried out in Kitakyushu.This program is in line with the cluster "Improvement of waste management and promotion of a sound material-cycle society" of "JICA Clean City Initiative", which is the Global Agenda in environmental management sector.				
25	202515148	Water Resources	Urban Water Supply		
	Non-Revenue Water Management (Leakage Control)			English	Chubu
	Capacity development in non-revenue water management including detection and prevention of leakage, analysis of leakage volume, and planning of leakage prevention is done, through practical training contents such as practical exercises, field visits, practical lectures, and a knowledge sharing among participants.In addition, in order to realize "Knowledge Co-creation" through the program, we will exchange information with the participants even before they arrive in Japan, as well as to strengthen the network of ex-participants to maximize the effect of the program in the future.				
26	202515157	Disaster Risk Reduction	Comprehensive Disaster Risk Reduction		
	Disaster Risk Reduction and Management on Infrastructure (River, Road and Port)			English	Kansai
	Economic loss and physical loss in developing countries become more intensive and sever due to insufficient investment into Disaster Risk Reduction (DDR). In order to minimize disaster damage, it is important to focus not only on responding the disaster after it occurs, but also on disaster prevention or preparedness of disaster before it happens. Japan, which has been suffered from the past disasters, is expected to contributes to raise awareness of disaster prevention and to promote economic and social development in developing countries.				
27	202515158	Disaster Risk Reduction	Comprehensive Disaster Risk Reduction		
	Fire Management and Disaster Risk Reduction			English	Kyushu
	As effort for Priority 1 "Understanding disaster risk" and Priority 4 "Enhancing disaster preparedness for effective emergency response" in "Sendai Framework for Disaster Risk Reduction 2015-2030," participants are able to enhance practical knowledge and techniques of fire fighting and rescue techniques in various fire site, and awareness activities of disaster risk reduction towards community.				
28	202515162	Disaster Risk Reduction	Soil and Water Disaster		
	Sediment Disaster Risk Reduction			English	Tsukuba
	JICA emphasizes the importance of strengthening the capacity of organizations in charge of disaster risk reduction infrastructure (DRR infrastructure) and critical infrastructure to increase pre-disaster investment for DRR and to maintain and operate such infrastructure on a self-sustaining and developmental basis from their own budgets. The goal is to reduce risk and human and economic losses by improving landslide DRR infrastructure.				
29	202515164	Disaster Risk Reduction	Wind and Flood Disaster(Flood Control)		
	Water Related Disaster Risk Reduction			English	Tsukuba
	Intensity and frequency of floods are expected to increase due to the effect of climate change. This course, which targets administrative officials responsible for water related disaster risk reduction, offers lectures, site visits and seminars on disaster risk reduction and flood control systems and measures in Japan to improve participants' capability to policy planning and its implementation.
